### **The Moscow Special Alloys Processing Plant added to the LBMA's Gold Good Delivery List**

The LBMA announces that the Moscow Special Alloys Processing Plant has been added to its Good Delivery List for gold, with effect from 11<sup>th</sup> May, 2007. The addition of Moscow Special Alloys brings the number of Russian refiners to be accepted onto the LBMA's Good Delivery List for gold to eight.

The Company has satisfied the LBMA as to its production capability and financial standing. It has also passed the LBMA's exhaustive testing procedures, under which its gold bars were examined and assayed by independent referees, and its own assaying capabilities have been tested.

The Company, which is based in Moscow, was established in 1946 and is a State owned enterprise. Moscow Special Alloys has a workforce of approximately 700 and produces a wide range of gold and silver products and more than 300 alloys based on these metals including electro-contact materials, conductors, solders and dental products.

#### **Background**

The London Good Delivery List of Acceptable Refiners of gold and silver is maintained by the LBMA, by whom it is copyrighted. It lists those refineries whose gold and silver bars have been found to meet the required standard for acceptability in the London bullion market when originally tested. The List now includes 56 gold and 63 silver refiners.
